

Our wallpaper is printed on demand, according to your specified measurements, so that you only receive the wallpaper you need, customized to fit your space. In order to calculate the amount of wallpaper you will need, please measure the height and width of your wall(s) as shown in the following diagrams.

1. A rectangular wall

Measure the total width and height at the highest point.

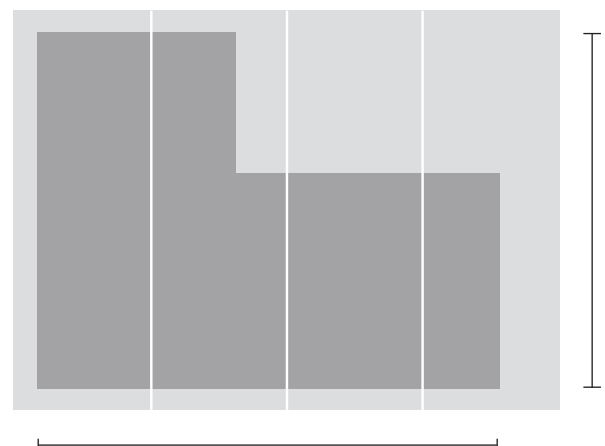

2. A slanted wall

Measure the total width and height at the highest point.

3. A wall with a door or window

Measure the total width including the opening and height at the highest point.

4. Two or more walls together

Measure the total width of all walls together and height at the highest point.
